

WINDSPARROW STUDIO

hand carved block prints for garden & home

ABOUT WINDSPARROW STUDIO

When I was in my 20's, I graduated from college, moved to the Pacific Northwest, and started an organic flower farm. In the summertime, I created beautiful bouquets, and during the long, rainy winters I learned to make prints. Now, I'm a full-time artist, creating designs, carving blocks, and printing pretty things to send out into the world. I love it! My work is inspired by my flowers, our kitchen garden, and the wildlife surrounding our home in Washington State.

. New colors, products, and designs added regularly!
